PROFESSIONAL SUMMARY

Results-driven medical doctor and software developer with a strong foundation in clinical medicine, research methodology, and healthcare technology. Proven leader with experience representing large student bodies and engaging with executive institutional leadership. Adept at bridging the gap between medicine, health informatics, and organizational strategy to improve patient outcomes and system efficiency.

EDUCATION

Bachelor of Medicine, Bachelor of Surgery (MBBS)

Obafemi Awolowo University | Graduation: April, 2026

- **Clinical Rotations:** Internal Medicine, Surgery, Pediatrics, Obstetrics & Gynecology, and Community Health.
- **Patient Care & Diagnostics:** Developed diagnostic reasoning skills and a patient-centered approach while managing diverse populations.
- **Medical Documentation:** Maintained high standards for patient records, adhering to ethics and privacy protocols.

WORK EXPERIENCE

Leadership & Professional Involvement

The General Secretary

Obafemi Awolowo University Medical Students’ Association (IFUMSA) | 2024 – 2026

- **Stakeholder Management:** Represent the student body in formal engagements with university leadership, including the Provost and Faculty Deans, to advocate for academic and welfare improvements
- **Organizational Strategy:** Plan and execute official sessions and large-scale medical seminars, coordinating logistics and cross-functional teams.
- **Conflict Resolution:** Serve as a liaison between the administration and the student body, resolving complex organizational issues through negotiation and transparent communication.

Clinical & Research Experience

Clinical Trainee / Intern

Obafemi Awolowo University Teaching Hospital OAUTHC | 2022 – 2026

- Performed patient triage and preliminary examinations under senior physician supervision.
- Streamlined clinical documentation workflows to improve departmental efficiency and patient data retrieval.

Clinical Research Assistant & Methodologist

Academic/Clinical Study | 2025 – 2026

- Designed research protocols in compliance with Good Clinical Practice (GCP) and ethical standards
- Conducted systematic literature reviews and synthesized complex datasets to support evidence-based medicine.

Technical & Informatics Projects

Health Informatics & API Security Project 2021 – 2026

- Analyzed medical data streams and network communication flows to optimize health-tech application security.
- Translated clinical requirements into technical data workflows for hospital information systems.

CORE COMPETENCE

- **Clinical:** Emergency Triage, Pharmacology, Public Health, Clinical Diagnostics.
- **Leadership:** Strategic Planning, Stakeholder Relations, Team Management, Crisis Communication.
- **Research & Tech:** Research Methodology (GCP), Systematic Reviews, Python/Java, API Security.
