Ife Central, Osun (NG)

PROFESSIONAL SUMMARY

A dynamic full stack software engineer with over 6 years of a proven track record of delivering robust scalable software solutions, and with a solid understanding of backend/frontend architecture and system-level designs. Proficient in various tech stacks like React.js, Next.js, Vue.js, Node.js, MERN, Java/Spring Boot, Python/Django, PHP and more. Highly skilled in database design, API development, Content Management System (CMS) development and cloud technologies such as AWS, GCP, and Azure. Known for consistently optimizing code for performance and security, resulting in improved user experiences and reduced operational costs. Seeking a challenging software engineering role to drive innovation and make a significant impact on groundbreaking projects.

WORK EXPERIENCE

Senior Software Developer

Mahshell Soft Inc

11/2023 - 01/2025

Kano, Kano

- Led a cross-functional team of 4 developers to successfully deploy a web application that enhanced client engagement metrics by 30%
- Designed and implemented microservices architecture using python and django, enhancing system scalability by 20% and improving reliability
- Guided the team in adopting best practices for DevOps, leading to a 30% reduction in deployment times and increased delivery frequency
- Implemented code optimization techniques that resulted in a 25% reduction in application latency and improved user experience
- Collaborated with designers and product managers to create user-centric interfaces, increasing user satisfaction scores by 18%

Software Engineer

Fiverr & Upwork

11/2017 - 01/2023

Remote

- Architected and implemented complex integrations with third-party APIs, significantly improving accuracy and availability
- Implemented CI/CD pipelines using Jenkins, which reduced manual deployment errors by 60%
- Initiated a project to refactor outdated codebase, leading to a 35% improvement in code maintainability
- Developed mobile-first applications by writing maintainable, production-quality code supported by automated tests and observability tools

Junior Technical Staff

The Statesman Schools

09/2015 - 11/2017

Abakaliki, Ebonyi

- Developed and deployed web applications using PHP and WordPress, directly contributing to a 35% increase in revenue
- Wrote clean efficient and maintainable code following best practices and coding standards, boosting production by 40%
- Identified process inefficiencies and proposed creative solutions, resulting in a streamlined operations and reducing costs by 10%
- Examined and optimized frontend JavaScript codebase, enhancing performance and reducing load times by 15%

ENTREPRENEURIAL EXPERIENCE

Founder & CEO

Clivoken Systems LTD

11/2017 - Present

Ife Central, Osun

- Spearheaded integration of Docker containers to streamline deployment, minimizing setup time by 50%
- Implemented advanced security protocols, enhancing software robustness and reducing vulnerabilities by 30%
- Orchestrated backend RESTful API development for seamless data exchange, improving system zresponse time by 15%
- Wrote detailed technical documentation for APIs and microservices, increasing team efficiency and knowledge sharing

EDUCATION

Bachelor of Medicine, Bachelor of Surgery (MBBS)

Obafemi Awolowo University

04/2018 - 04/2026

Ife Central, Osun

PROJECTS

Multitenant Point-of-Sale System

https://github.com/Oken/mbims-fe

A platform that efficiently increased sales by 20% and reduced managerial cost

Online Dinner Ticketing

https://fecamds-dinner.web.app/

A ticketing platform that enabled a students' association to reduce event planning cost by 50%

KEY ACHIEVEMENTS

- ⚡

Increased Transaction Speed

Implemented a point-of-sale system that boosted client transaction speeds by 35%, enhancing user experience and operational efficiency
- 👤

Optimized Deployment Times

Developed a DevOps strategy that reduced application deployment times by 30%, improving release schedules significantly
- 👥

Mentored Junior Engineers

Mentored and guided 4 junior engineers, leading to a 30% improvement in their coding efficiency and quick onboarding
- ★

Scalable SaaS Platform

Key contributor to building a SaaS platform that scaled to over 10,000 global users, solidifying the company's market positioning

SKILLS

Hard Skills

MERN, Django (python), Springboot (Java), React.js, Vue.js, MySQL, Git workflow, Kubernetes, Docker, WordPress, WooCommerce, RESTful API,

Soft Skills

Problem-Solving, Collaboration, Passion for Learning and Innovation,Excellent Communication

CERTIFICATION

JavaScript Course: Complete Guide (Step by Step)

Issued 08/2020 by Udemy
ID: UC-89a83cc5-03a9-4c1b-92bf-7759d9891355
Online course focusing on real-world application of Javascript

The Complete Python Programmer: From Scratch to Application

Issued 08/2020 by Udemy
ID: UC-bbeae395-cd66-4bb6-878b-8abde1ce691c
Completed to deepen knowledge in Python

PASSION

Health and Technology

Keen interest in the use of softwares, AI and software engineering in the health sector to improve the quality of life
